The Origin Of a pure Material

The 600x600mm tile size popularly referred to as the 2x2 tile size, is considered an ideal tile size for both residential and commercial spaces. Being in the middle of 'too big' and 'too small', it's apt for every ambience. Following in the footsteps of this quintessential trend, "Glossy" echoes the magnificent traditions of age-old, artisan craftsmanship. In vitrified ceramics, classical glossy tiles deliver tremendous architectural impact.
